

CuraLin

# Diabetics Need CuraLin During COVID-19!

Type 2 diabetics are very vulnerable to Covid-19 due to high glucose levels.

Viruses love to eat the sugar in blood. diabetes specialist Gary Scheiner says "You're feeding the enemy in a way if your blood sugar is poorly controlled. high blood sugars are going to extend your recovery time and cause symptoms to become worse".

1

Diabetics with high blood sugar are at greater risk of COVID-19 because "*Elevated blood sugars can suppress the immune systems and promote viral replication*"  
- Dr. Decker Weiss
